

## MacNabb Bros in Partnership with Gypsum Recycling Ireland

Be fully compliant with NIEA regulations and save on disposal costs:

Join the most successful plasterboard recycling system in the world.

Avoid landfilling plasterboard waste that can be recycled into valuable gypsum raw material instead.

### IF YOU OPERATE IN THE DRYLINING OR CONSTRUCTION INDUSTRY

Turn to us for a turnkey approach that will lower your cost of disposal and secure an environmentally friendly solution. You will receive the appropriate containers at your site. You will receive containers that facilitate easy segregation and are easy to use. In addition you can be charged an "all in" price – nothing could be easier.

#### Benefits of using our system:

- Full compliance with new NIEA regulations.
- Saves Money
- Avoids increasing Landfill taxes.
- Can be used within your Site Waste Management Plan (SWMP)
- 100% recycling of all plasterboard waste
- Turn key solution: Collection and recycling with one company in Northern Ireland
